D. Employees' Physical Examination and Medical Updates

School employee physical, examinations and/or annual medical updates shall not require disclosure of HIV status.

E. Examination of Candidates for Employment

1. Candidates for employment will be required to undergo a physical examination to include a health history, health screening and medical evaluation.

a. This pre-employment physical examination shall not be used to determine a candidate's disabilities; and

b. This examination shall be used only to determine whether the applicant is able to perform with reasonable accommodation job-related functions pursuant to P.L. 101-336, American with Disabilities Act of 1990.

F. Controlled Dangerous Substance Testing

Candidates for teaching staff member positions, who have received a conditional offer of employment must complete testing, conducted at the Board's expense, for the usage of controlled dangerous substances as they are defined in N.J.S.A. 2C:35-2.

1. Candidates will be allowed privacy during specimen collection. Control and accountability of specimens will be maintained with a chain of custody in accordance with accepted practices and as recommended by the approved laboratory. The laboratory will be selected by the Board and approved by the New Jersey Department of Health.

2. The laboratory will conduct an initial or screening test and a confirmatory test. Refusal of employment will not be based on the results of a screening test alone. An initial test is an immunoassay test to eliminate negative test results from further consideration and to identify the potentially positive specimens for the purpose of further testing and confirmation. A confirmatory test is a second analytical procedure to identify the presence of a specific drug which uses more sophisticated technique to ensure reliability and accuracy.

3. A Medical Review Officer, who is a licensed physician certified and qualified to complete drug testing will review the final results of positive drug tests, scrutinizing them for possible alternative medical explanations. The Medical Review Officer will review the candidate's medical history and will conduct a medical interview to determine the other relevant factors contributing to the results of the test. The Medical Review Officer will communicate the results of a positive drug test to the applicant and to the Superintendent.
4. The American with Disabilities Act (ADA) prohibits employment discrimination against qualified individuals with disabilities. Persons who use drugs illegally (the use of controlled dangerous substances (CDS) and the illegal use of prescription drugs) are not protected by the ADA.
5. After a conditional offer of employment, the school district may ask questions concerning present drug or alcohol use; however, information obtained may not be used to exclude an individual with a disability, based on the disability, unless it can be shown that the reason for exclusion meets the following three tests:
  - a. It must be job-related and cannot be met with reasonable accommodation;
  - b. It must be consistent with the demonstrated necessity of conducting business; and
  - c. It must be related to legitimate job criteria.
6. The school district may refuse to hire an applicant based upon a test result that indicates the illegal use of drugs. This action may be taken even if the applicant claims he/she recently stopped illegally using drugs.
7. The school district would incur liability under ADA if a person is excluded from a job if the school district erroneously regarded the candidate to be an addict currently using drugs illegally when the drug test showed the presence of a lawfully prescribed drug. The Superintendent will confer with the Medical Review Officer regarding all positive tests to prevent any ADA liability.
