- There is a low confidence that students and teachers can remain 6 feet apart during a class period
- There is a low confidence that students can be six feet apart on the school bus. All bus trips are longer than 10 minutes
- When a 6 foot distance cannot be maintained, the use of face coverings and physical barriers in a classroom are protective measures to decrease the risk of disease transmission, but do NOT eliminate the recommendation for individuals in the class or bus to quarantine if there is a positive or probable case.
